Skills

- Portuguese fluent
- English B2
- Microsoft Office Suite
- Web Developer

Education

Estácio de Sá University - UNESA

Bachelor's degree in Information Systems

Completed in 2023

SUMMARY

I'm a passionate professional in creating impactful and functional digital experiences. With begginer level Python and a strong skill set in web development, including advanced knowledge in HTML, CSS, JavaScript, PHP, and SQL. Having experience in two previous positions as a web programmer. I am currently eligible to work on Portugal and Brazil, with proficiency in English at a B2 level and C2 Portuguese.

I am excited to contribute my experience in an international environment. In addition to my skills, I have mastery over the Microsoft Office Suite, providing a comprehensive and effective approach to projects.
